

TERE, MATEMAATIKA!

U. ANDRESSOO A. LINTS

TERE, MATEMAATIKA!

TÖÖRAAMAT 6-AASTASTELE LASTELE

5. trükk

TALLINN · «VALGUS» · 1983

Kunstiliselt kujundanud V. Kotkas

Kinnitanud Eesti NSV Haridusministeerium

Tere, matemaatika!

on tööraamat 6-aastastele lastele. See võimaldab arendada laste matemaatilisi kujutlusi, valmistada neid ette edukaks õppimiseks koolis, ühtlasi äratada huvi matemaatika õppimise vastu.

Tööraamat on mõeldud kasutamiseks

lasteaedades,

kooli ettevalmistusrühmades.

Tööraamatu igal leheküljel on lühidalt märgitud, mida lapsel teha tuleb. Trükitud teksti loeb ette kasvataja, õpetaja või kodus keegi täiskasvanuist.

Tööraamatu lisana on antud lahtistel lehtedel numbrid, pildid, kujundid, mängurahad jne. Neid lõigatakse lahti vastavalt vajadusele ning kasutatakse tööraamatu lehekülgedel selleks ettenähtud ruutudesse asetamiseks. Numbrite kirjutamist koolieelikele ei õpetata, seda teeb kool; numbreid tundma ja lugema aga õpitakse juba enne kooliminekut.
